

WHO BUILT THE PYRAMIDS AND ARE THEY STILL PARTLY HERE...

OBJECTIVE:

This article is aimed at pointing out obvious evidence and applying logic to prove a point!

THE OBVIOUS EVIDENCE

Here is the problem, there are hundreds and hundreds, maybe thousands of extraordinary examples of inhuman structures/stuff out there and to discuss them in detail would mean pages upon pages of information and evidence to be shared with you which you could actually just go and Google. So, the alternative is for me to briefly summarise some of these fascinating structures, supported with some photo evidence.

Imagine 2.3 Million stones. How many is 2.3 million? Imagine taking 19mm stones (the ones they use in concrete mix) and placing them in a straight line next to each other, then that line will be 43.7 km long. That is a lot, but wait, imagine the smallest stone being the weight of a large S Class Mercedes Benz! Yes, the smallest one, while the bigger ones weigh 15 tons. Imagine all these placed on top of each other by "primitive man" or "something/someone"? The 2.3 Million should give it away, yes it's the Great Pyramid of Giza. Not only were these huge stone blocks, had to be placed on top of each other and millions of them, but the pyramids also had bizarre features which were beyond human capabilities, "god-like", such as:

- An average of 20 Celsius is maintained inside the pyramids, while it can reach 50 degrees Celsius outside and a piece of meat in the king's chamber will dry out, but not rot;
- The co-ordinates of the pyramids are 29.9792458 degrees North, while the Speed of light is 299792458 meters per second (all 9 symbols exactly the same);
- The circumference of the pyramid divided by its height is pi;
- The pyramids are aligned with Orion's belt with the entrance pointing to the North star and the inner corridor pointing to Sirius and the largest directly below the brightest star;
- The pyramids have precise angles from the bottom to the top on all sides;
- There is alignment with the Universal constant and Golden ratio;
- They are almost exactly True north and exactly at the centre of five ancient continents;
- Plants grow better inside the pyramids;
- The gaps between the stones are almost non-existent;
- Inside the pyramids the stones are cut to perfection, some extremely hard granite;
- The height of the Pyramid is 149.4 meters, while the distance between earth and the sun is 149.4 million Km
- And probably more undiscovered features...

The pyramids were placed on sand while the biggest one weighs 6 million tons.

Just these three structures are beyond impressive, but wait, there is more, much much more...

Now imagine stone blocks of around 800 tons each, making the "already-extremely-large-and-heavy-pyramid-blocks" look like Lego blocks, which had to be moved over rough terrain and placed on top of each other?! Yes, these are at the base of the Jupiter Baal Temple ruins and were not only "transported", but had to be lifted to a height of 20 feet above ground (these blocks are shown in the first picture below with a human within the little pink circle) and the combined weight of the base is estimated to be around five billion tons. Yes, 5 000 000 000 tons of stones apparently

lifted by Humans or "something". Some of the other even larger stones discovered in the quarry are the "Stone of the Pregnant Woman" (estimated at 1,000 tons), the "Stone of the South" (estimated at 1,242 tons), and the "Forgotten Stone" (estimated at 1,650 tons) as shown in picture 2 and 3 below.

Picture 1

Picture 2

Picture 3

Incidentally, it is speculated that the Jupiter Baal Temple was built for Baal, so why would man build such a huge and complex structure for a fictitious rain/fertility god, unless it was built to be spiteful...? (we will get to this later).

Then some of the hardest rocks had been cut or holes and cavities were made in them while today's modern humans need diamond-tipped saws to cut these hard rocks. So what did the "humans" or "somethings" had then, to do the same job thousands of years ago? Many of the stones fit so perfect that even a paper would not fit in-between. We can go on and on with more examples such as the figures on Easter Island (picture 4), Sonehenge (picture 5) and so many others like picture 6.

Picture 4

Picture 5

Picture 6

Reports of the 2014 expedition claim that the geologists encountered some unexplained problems with their compasses when the arrows began deviating away from the megalithic blocks. It has been suggested that they may have experienced inexplicable phenomena of a negative geomagnetic field, leading to notions of the possible use of ancient antigravity technologies unknown to modern science...

And here are some more photos of large and unique stones/structures where experts claim that these were **impossible to make by humans** with their available technology/tools at the time:

Who built the pyramids and are "they" still partly here...

The list of unexplainable structures and mysteries go on and on (see below a list of some more which you can go Google for more information if you want):

- The Giant Spheres of Costa Rica
- Tiwanacu and Puma Punku
- Nazca Lines
- Sacsayhuaman
- Stonehenge
- Costa Rica Stone Spheres
- Trilithon at Baalbeck
- Shroud of Turin
- Star Child Skull
- Enormous Cone Head Of Paracas Peru
- The Antikythera Mechanism
- Salzburg Cube
- Screaming Mummy
- Ever-Burning Lamps
- Panxian Caves
- Lady Of The Spiked Throne
- Ancient Structure Underneath Sea Of Galilee
- Hidden Shoes In Egyptian Temple
- Baiae Tunnels
- Antelope Springs Footprint
- The Pyramid Of Hellinikon
- Unsolved Mystery Of Gedi Ruins – Kenya
- Great Ruins Of Zimbabwe
- Ancient Kingdom Of Thulamela Created By Mysterious Shona People – Zimbabwe
- Mystery Of Osun-Osogbo Sacred Grove And Its Remarkable Ancient Figures - Nigeria

- Obscure Past Of Mzoura Stones – Morocco
- African Stonehenge - Extraordinary Stone Circles Of Senegambia
- The Lost Ancient City In The Kalahari Desert
- Ancient Intriguing Sao People - One Of The Oldest Civilizations Of Central Africa
- Mystery Of The Lydenburg Heads - South Africa
- Gigantic Engravings Of A Giraffe Created Long Before Egypt As We Know It Existed
- Rongorongo - Wikipedia
- Extensive underground networks and even entire cities have been found all over the world. Derinkuyu in Cappadocia in Turkey is probably the largest underground city that has been discovered to date.
- Enduring Mystery Surrounds the Ancient Site of Puma Punku
- The Plain of Megalithic Jars

LOGICAL QUESTIONS

So, from the above, we can see that there are signs all around us. Signs of things made/built that are impossible/questionable by human hands even by today's standards. **So the first logical question would be:** How could "primitive" man do/accomplish these things? I am using the word "primitive", because 2 000 years ago, writings show that man was capable of building and riding on chariots pulled by horses, wore basic dress-like cotton clothing, was able to do basic metal work such as swords for fighting and had the ability to build highish walls and temples, but the further back we go, the more basic (primitive) man was supposed to be, as **logic** shows us that the further forward we go, the more advance man became and vice versa. So between 500 and 1200 years "Before Christ", it was the Iron Age, between 1200 and 3300 years "Before Christ" it was the Bronze age and before that, the Stone age and "O Boy", from the examples above, that stonework was beyond comprehension...

Another logical question: If these "guys" could build such huge and impressive structures during the Stone age, why not continue and even improve on them during the Bronze age (e.g. by incorporating Bronze within new and even bigger structures) and improve further during the Iron age and even further during the Classic period, Middle ages, etc...? If the Stone-age people could create the stone structures at Baalbek, the Great Pyramids and other huge structures, then the Bonze, Iron and subsequent "ages" should have gone many steps further and built even bigger, better and more impressive structures, because man has been evolving all along? Yet, this did not happen, so **something must have gone wrong?**

For thousands of years, the Great Pyramid in Egypt was the tallest structure in the world at 146.5 meters and only in 1311, the Lincoln Cathedral's tower (just the tower part) surpassed that. What is wrong here? **Another logical question:** Why did man evolve and then stopped for thousands of years before "catching up" again? It does not make sense, **unless man did not build the Pyramids and the other "superhuman" structures!**

Another logical question: If there was this "advanced civilisation" capable of creating/building all those huge structures, where are they today? If they did exist, they should have kept evolving through the stone ages until today and would have stood head and shoulders above us normal humans, probably dominating us totally, but where are they? Why did they disappear or did they spend years here on earth wasting their time building just structures and then left in their flying sources?

Another logical question: if man wanted to accomplish a task, it is logical that the easiest/fastest route would be taken to do so, as man is not only naturally lazy, but want to be as efficient as possible and would seek the easiest way. So why did man not build the Pyramids with smaller blocks, but chose an extreme difficult option, **unless man did not build them?**

POSSIBLE ANSWERS

It is clear that man did not build them, not only because of the impossible large structures, but due to the lack of tools and the fact that they did not progress forward, building bigger and better structures in the Bronze, Iron and other ages! There can thus logically ONLY be two LINKED reasons why there are no bigger/better structures evident today all over the world built after the Stone age, but before the twentieth century. These two reasons are:

- 1) Man did not build the Stone age structures alone, but had help from something out there; and
- 2) Something happened that stopped this evolutionary building trend.

There can be no other reasons, because:

- 1) If man built the Stone age structures alone, then even bigger/better ones would come from the Bronze and Iron ages, bigger/better ones from the early and middle ages and today their structures would reach the Stratosphere, because man has been evolving all along, but there are no such structures after the Stone age, so man did not build these structures; and
- 2) Since there are no bigger/better structures after the Stone age, something must have happened to stop the trend. If something happened that stopped the trend, then it did not happen to man, because man is still here with us today, so it must have happened to those other "somethings" that built the structures.

SO WHO WERE THEY?

If man did not build most of the above structures, then there can only be two other "things" that built them, namely:

- 1) An advanced alien race/civilisation; or
- 2) God-like creatures.

Let us analyse each option and start with the first one above, namely an advanced alien race/civilisation):

A) FROM WHERE AND HOW DID THEY GET HERE:

If so, how did they get to earth and from where? To travel between stars and/or galaxies, takes years and years and it is not possible to get too close to the speed of light due to $E=MC^2$, unless they had a very very light or weightless crafts or could teleport, but the other facts below will disprove the advanced civilisation theory.

B) DID THEY BRING THEIR ADVANCED TECHNOLOGY:

If they were so advanced, but got to Earth during the Stone age, then they should have easily been able to transform/use Earth's rich resources to build tools/technologies to quickly surpass the Stone age, make metal/bronze/stainless steel and other materials and create modern products to incorporate into the many of those stone structures we see today, but that did not happen?

C) DID THEY BUILD THESE HUGE STRUCTURES

An advanced civilisation would probably have had advanced technology (e.g. Flying saucer with extreme power and speed) to get here and could probably be used to build the stuff, but why would they waste their time building primitive stuff instead of doing what they came to earth for? It does not make sense, because an advanced civilization would do advanced stuff! (build with stone, really!).

D) NOT COME BACK:

If they were an advanced civilisation and left, why have they not come back many times again?

E) LEFT CLUES:

If they were an advanced civilisation and capable of traveling through space, then why did they not leave us with advanced clues and messages like we did in 1977 with Voyager 1 and 2 by including a set of phonographic records called "The Voyager Golden Records"? Giant stone structures by an Advanced civilisation? Really, they should have had robots, AI, quantum computers and what not.

F) TASKS ON EARTH:

If they were an advanced civilisation, why earth and what did they come here for if not for our resources? Would they not have rather extracted earth's scarce resources than build many many stone buildings and waste their valuable time (remember the more advance humans become, the more precious time gets. In the days before radio and television, people would sit around a fire and talk all night or sit in the field all day and watch their sheep or hunt, having much more "Time" at hand, but today there is so much going on, that us humans constantly feel that we have no time. An advanced civilisation would also not have enough time and would not want to sit around and build primitive (but huge) stone structures that would take years and years to build, as they would rather use their technology and know-how to extract earth's resources or something else that we might not yet be aware off, but if so, why is there no primitive evidence of vast mining (open pit mines or mine shafts) and if they did extract earth's resources, they probably would have been able to deplete earth's resources very quickly with their superior technology, yet us humans still have a lot of untouched resources which does not make sense!

G) CONCLUSION:

The LOGICAL conclusion to the above possibility is NO, it was NOT an advanced civilisation that was here.

Ok, so let us look at the next possibility (“God-like” creatures).

A) FROM WHERE AND HOW DID THEY GET HERE:

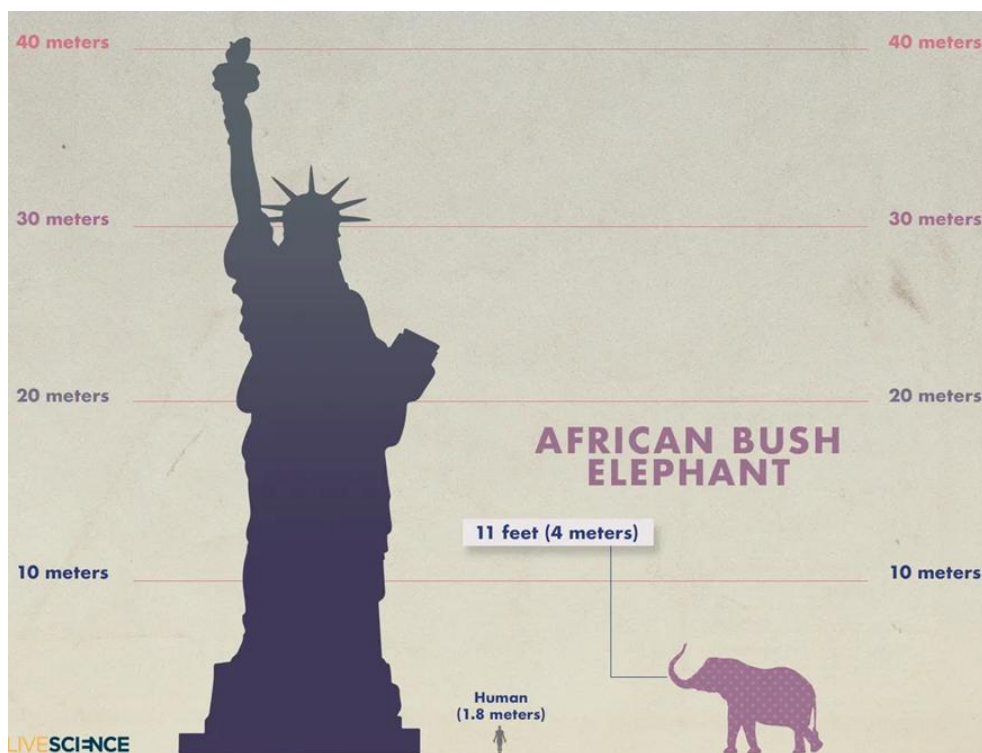

If so, how did they get to earth and from where? **Well, this question can be answered**, as there are writings about this all over, not only in the Bible, but in the Dead-sea scrolls and other writings.

Revelation 12:7-9 - ⁷And there was war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels, ⁸And prevailed not; neither was their place found any more in heaven. ⁹And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him.

These were called the “Fallen Angels” or “Watchers” and they were cast out of Heaven and onto earth.

B) DID THEY BRING THEIR ADVANCED TECHNOLOGY:

They were kicked out of Heaven, what do you think? No, they could not even bring a backpack or steal and bring a golden paving brick with them, because they were kicked out, so the only “advanced technology” they had was their Angel powers, their superior knowledge and their huge size as per Revelation 21:17, converted they were 65.83 meters high, wow they were huge, but according to Enoch, even bigger/higher (137meters), but imagine being at least 21 stories high, that is massive/huge, as large as King Kong in the movies and their off-spring (the Nephilims) were referred to as Giants (taller than the Statue of Liberty!).

C) DID THEY BUILD THESE HUGE STRUCTURES

Who else could build these structures? Being as huge and strong as King Kong with superior knowledge, they could easily have been able to build the Pyramids, the BAAL structures and many of the other structures. This would have also been their way to show off and keep busy.

D) NOT COME BACK:

Why did they not leave earth and come back later? Easy, they were cast onto earth in a primitive age, what do you think? (God did not want them to return to Heaven). Perhaps some were able to fly to Mars, but perhaps that is the furthest they could get and perhaps there is evidence of their existence there as well? The main reason why they did not leave earth is because they perished (their bodies) in the Great Flood which was planned not only to get rid of Human evil, but also get rid of those that mostly influenced man to become evil, namely the fallen angels and their ½ human offspring, also giants, the Nephilims.

E) LEFT CLUES:

They the leave clues, yes, there are many clues (remember that they were thrown out of Heaven and do you think they had or could bring modern technology with them?). There are hundreds and hundreds (perhaps Thousands) of (massive) stone structure clues and artefacts all over the world. Yes, humans only travelled to America in 1492 by boat, but the fallen angels could probably fly, so they were all over the world and that is why so many artifacts are similar all over the world.

F) TASKS ON EARTH:

They were not on earth out of their free will. They were not on earth to explore, they were not on earth to search and mine resources, they were basically forced here, so what would you do if you were placed on earth thousands of years ago in a primitive age with nothing and nothing to do, while you had super powers, were giant in size (21 stories high), so as big and strong as King Kong, and had super knowledge of the cosmos and other super knowledge? Might as well stay busy and build stuff and demonstrate your power and knowledge to the humans (the humans did worship them and was in awe of their size and abilities: *Genesis 6:1-22: "When man began to multiply on the face of the land and daughters were born to them, 2 the sons of God saw that the daughters of man were attractive. And they took as their wives any they chose. 3 Then the Lord said, "My Spirit shall not abide in¹ man forever, ^afor he is flesh: his days shall be 120 years." 4 The Nephilim² were on the earth in those days, and also afterward, when the sons of God came in to the daughters of man and they bore children to them. These were the mighty men who were of old, the men of renown"*). Might as well also build a place of worship not to worship God who kicked you out of Heaven, but someone to spite God. What about Baal...? Humans at the time relied on fire as their only energy

source, but that was so limiting, so why not build a massive powerplant with the limited tools and resources available at the time, but by using their superior knowledge?

G) WHY DID THEY NOT EVOLVE WITH HUMANS?

So you may ask why did they not evolve with humans, help humans accelerate progress and build bigger and better things as time moved on? They probably started doing so, but they (their bodies) were wiped out in the Great Flood and that is why there are probably so many stones at quarries that had not yet been moved and built with (the flood was sudden and stopped them in their tracks). In the Book of Enoch (not part of the Bible) it is clear that their spirits remained on earth and did not go to Heaven (the book of Enoch stated that their bodies will die by the flood, but their spirits will remain on earth as monovalent beings (Evel spirits)). Why did God show Enoch the "secrets below the earth"? What is either hidden below the earth or was locked up there by God? (**Philippians 2:10** - ¹⁰that at the name of Jesus every knee should bow, in heaven and on earth and under the earth and **1 Samuel 28 vs 13**: "¹³The king said to her, "Don't be afraid. What do you see?" The woman said, "I see a ghostly figure^[a] coming up out of the earth". So what is below earth, perhaps what humans are not supposed to uncover? Look at what the book of Enoch stated "And again the Lord said to Raphael: 'Bind Azazel hand and foot, and cast him into the darkness: and make an opening ⁵ in the desert, which is in Dudael, and cast him thereⁱⁿ. And place upon him rough and jagged rocks, and cover him with darkness, and let him abide there for ever, and cover his face that he may ^{6,7} not see light".

Just as well that their bodies were wiped out at the time, because when Jesus came to earth, also in body, the huge fallen angels and their offspring would have attempted to wipe Jesus's body out before he could die for our sins and there would have been a huge fight between good Angels protecting Jesus's body and bad angels on earth.

H) CONCLUSION:

The only logical explanation for the large/magnificent stone structures is that they were built by the fallen angels/the "Watchers" and their offspring (Nepheline giants) who were all huge in size and able to lift those stones, perhaps even with their wings and fly up in the air to place the huge stones on top of each other (**Numbers 13:33**: *We saw the Nephilim there (the descendants of Anak come from the Nephilim). We seemed like grasshoppers in our own eyes, and we looked the same to them*)).

IN SUMMARY

The **huge** and heavy magnificent structures could only have been built by **huge** creatures.

Structures such as the Pyramids were **extremely intelligently** built and could only be built by **extremely intelligent** creatures.

Even greater and more modern structures were not built, because these creatures were wiped out (or locked up, possibly below earth) before the onset of more modern ages and new technologies.

These structures appear similarly (e.g. pyramids) all over the world, only if creatures were able to transverse great distances such as flying or running huge steps at a time.

So there you have it, it was not the ancient Egyptians or an advanced civilisation that built these structures. If we apply common LOGIC, it is clear who built all these huge structures all over the world and why some were incomplete as well as why these magnificent builders disappeared in flesh.

Now that is not all, this verifies and confirms what the Bible has been saying all along and these structures are, excuse the pun, the biggest and clearest permanent evidence all over the world.
